## **Austin Semiconductor Announces a Renewed Focus on their Extensive Offering of Semiconductor Services**

**Austin, Texas** - Austin Semiconductor, Inc. (ASI), a leading supplier of high reliability (HI-REL) and plastic encapsulated semiconductor products and services is pleased to announce a renewed focus on their extensive offering of semiconductor services.

For over 20 years ASI has been a premier quality service provider offering hermetic & plastic packaging, DMS program management, environmental screening, device upscreening and COTS extended qualification. Austin Semiconductor's expertise in all post-fab processes and lean, streamlined manufacturing enables them to provide their customers with lower prices and competitive lead times.

"Austin Semiconductor has a long standing history of supporting the HI-REL community through its extensive product and service portfolio. We believe that, in addition to providing quality products, our broad range of manufacturing capabilities allows us to provide superior service to this community. We continue to see synergistic opportunities between our products and the services we offer." says Danny Weibel, Director of Manufacturing.

Attention to detail in quality, manufacturing and engineering has always been a foundation of Austin Semiconductor's corporate philosophy. ASI prides itself on building and maintaining long-term business relationships, as well as providing full turnkey services solutions to their customers' specific product and manufacturing needs. ### **TURNKEY & BUILD TO PRINT**

#### ***Hermetic and Plastic Packaging***

- Domestic quick turn, prototype, and high volume assembly
- MIL-PRF-38535 Class V Assembly and qualification
- MIL-PRF-38534 Hybrid Assembly
- DSCC Laboratory Suitability, MIL-STD-883
- Extensive Test and Burn-in Capabilities
- Wafer Processing
- Custom Package Design

#### ***Program Management***

- DMS / EOL and Whole Life Product Support

#### ***Additional Services***

- Environmental Screening
- Failure Analysis
- Device Upscreening
- COTS Extended Qualification

Austin Semiconductor, Inc. has been supplying technology solutions to the high reliability marketplace for over twenty years. Being fully QML certified and ISO 9001 / AS9100 registered, Austin Semiconductor meets and exceeds the demands of the Military, Aerospace, Transportation, Industrial-Embedded and Medical Diagnostic markets. Current product offerings include a broad line of HI-REL ceramic components, multi-chip modules products, Integrated Plastic Encapsulated Microcircuits (iPEM), Commercial-Off-The-Shelf (COTS) up-screened products and a Solid State Disk.
